DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ringers et al. (US-4,049,686).

US'686 teaches a degummed triacylglycerols product. A claim to a compound defined by reference to the process by which it is produced, is not limited to compounds produced by the process recited in the claim. Therefore, process limitations cannot impart patentability to a product that is not patentably distinguished over the prior art.
